

ORCA

2-8°C, 15-25°C, 20-24°C, -20°C

TEMPERATURE
CONTROLLED

ORCA is a high performance range of solutions that provide up to 168 hours of superior thermal protection for 2-8°C, 15-25°C, 20-24°C, -20°C and deep frozen temperature sensitive payloads. ORCA systems are designed to manage excursion risks, control costs and prioritise patient safety.

The ORCA range utilises our advanced Phase Change Materials (PCM) and Vacuum Insulation Panels creating unparalleled performance while reducing volumetric weight. An innovative design that improves packing times, reduces pack out errors and the risk of thermal shock. The ORCA makes it easy to be fully GDP compliant.

Features

- The high performance, extended duration that the ORCA provides ensures “life’s most precious cargo” is always protected
- Safe to place in a fridge when experiencing unplanned delays
- Can be packed in a fridge or ambient warehouse with 3D barcodes providing links direct to ORCA instruction sheets
- Significant reductions in volumetric weight which provides a lower total cost of distribution
- Zero conditioning or bench time can be achieved for improved operational efficiency and removes the risk of cold shock
- Universal pack out makes the ORCA easy to use and reduces the risk of packing errors
