

ORCA S

2-8°C, 15-25°C

TEMPERATURE
CONTROLLED
PACKAGING

ORCA S is a single use range of high performance solutions that provide up to 96 hours of superior thermal protection for 2-8°C, 15-25°C and deep frozen temperature sensitive payloads. ORCA S systems are designed to manage excursion risks, control costs and prioritise patient safety for one way shipping.

The ORCA S range utilises Phase Change Material (PCM) and Vacuum Insulation Panel (VIP) technology offering unparalleled performance for single use systems while offering significant volumetric weight savings.

An innovative design that reduces packing times and errors, ORCA S makes it easy to be fully GDP compliant.

Features

- Up to 96 hours of high performance thermal protection
- 2-8°C systems safe to place in a fridge when experiencing unplanned delays
- Universal pack outs makes ORCA S easy to use and reduce the risks of packing errors
- Significant reductions in volumetric and physical weight which provides a lower total cost of distribution
