

YOUR LIFE-CHANGING THERAPEUTICS REQUIRE OPTIMUM PROTECTION

Maximise the Cold Chain

ORCA Solutions provide up to 144 hours of temperature control, allowing therapeutics to be transported safely from A to B to C without temperature excursions.

Certified Performance

We test all our solutions against stringent and challenging ISTA 7D profiles, ensuring performance in even the most challenging of shipping lanes.

Flexible for your Payload

With a wide range of sizes, temperature ranges and features, we have the solution to keep any therapeutic safe during transit.

Get in Touch

Speak to IntelSius' Renan Zorer here at the BioRN conference about your temperature-controlled and sample packaging needs.
