

The Intelsius BioShield Range of unique patented systems are designed to meet all handling processes from sample extraction to laboratory presentation. BioShields are highly protective single-use shipping solutions. They are available for a variety of sample capacities, helping to reduce waste and cut costs associated with sample transportation.

The systems are well suited to a wide variety of Category B samples, including solids, liquids, and samples held in fixative. The BioShield helps reduce total costs by ensuring that all samples will arrive at the same time for a simple and efficient sample reception.

THIS PRODUCT CAN BE USED FOR

- Diagnostic samples
- Screening programmes
- Eradication schemes

FEATURES

- Complete Category B compliant solutions including 95kPa 90ml sample pots, tray, extraction utensils and leak proof bag
- Techni-Ice gel sheet available with next day systems for temperature stability during transport
