

Title	Quality Policy version 2.7	14Apr21
--------------	-----------------------------------	----------------

As one of the leading manufacturers and suppliers within the Life Science Sector through innovation, design and manufacture of high quality products and services, we are committed to continued growth, the continual improvement of our Quality Management System and in satisfying applicable requirements, including statutory and regulatory.

This quality policy aims to meet the requirements from internal and external interested parties. We have determined the context, purpose and strategic direction of the organisation.

We recognise that reductions in waste, and improvements in process understanding and compliance, will help to ensure the sustainability of our organisation; as will the maintenance of our organisational knowledge for the consistent provision of product and service, and for business continuity purposes.

We are committed to achieving accredited ISO 9001 certification through co-operation, motivation and effective collaboration with all our interested parties. This will ensure consistency of approach, continual improvement and confidence/trust in our processes to deliver products and services to requirements.

Quality objectives will be set to support this policy, and the organisation's changing context. These will be reviewed at top management's monthly business update meetings.(GMM)

We are committed to enhancing customer satisfaction through the effective application of our Quality Management System, and with it a socially responsible attitude to the design, manufacture, installation and service of all our products and services, throughout relevant locations and business operations.

Signed: _____

David Walsh

Chief Executive Officer
