

ORCA CLOUD

UNIVERSAL LOGGER PORTAL

DATA
LOGGERS

ORCA Cloud transforms the way you manage temperature-sensitive shipments by bringing every data point into a single, intelligent platform. Designed for modern cold chain logistics, it delivers real-time visibility across global shipments, allowing you to monitor location, temperature, humidity, and more, all from one unified dashboard.

Built for flexibility, ORCA Cloud integrates seamlessly with a wide range of data loggers and packaging solutions, making it adaptable to even the most complex logistics networks. Its intuitive interface enables teams to set up shipments quickly, define routes, upload documentation, and track progress end-to-end.

Automated alerts and live insights empower your teams to respond instantly to deviations, reducing risk and ensuring product integrity at every stage.

ORCA Cloud delivers powerful reporting and audit capabilities that support compliance, quality assurance, and continuous improvement. Detailed shipment histories, tamper detection insights, and shareable reports provide full transparency for stakeholders across your organisation.

For more information please contact Intelsius UK info@intelsius.uk

Features

- Universal device compatibility
- Centralised data platform
- Real-time monitoring of key data parameters
- End-to-end shipment visibility
- Reporting and controlled data sharing
